

HBXL[®] factsheet

Health & Safety Xpert v.4

Pre-release notes

Health & Safety Xpert® is the award winning health and safety software from HBXL. You don't need to be a health and safety expert yourself as its built in knowledge base determines the likely tasks and risks involved on site and generates all the necessary paperwork for the job! With Health & Safety Xpert® you can be sure your paperwork is covered.

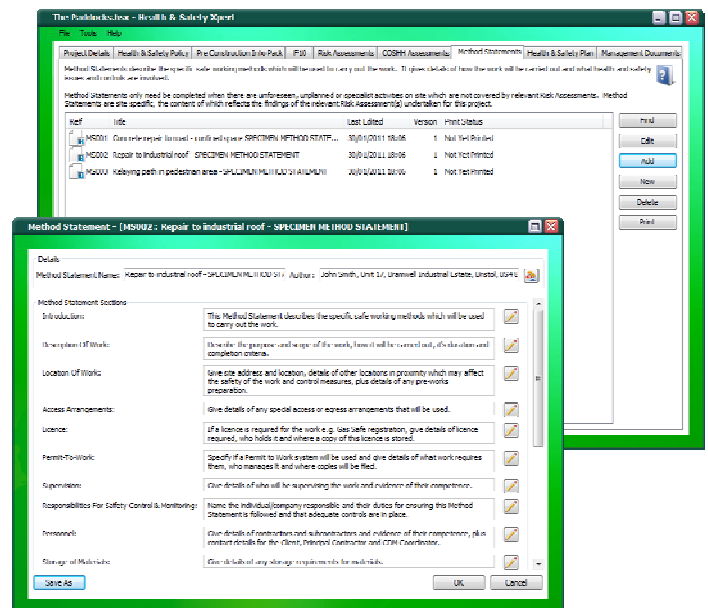

Existing Health & Safety Xpert® user? As part of our commitment to continuous product development we've spent a lot of time and resource in updating our software so that it is compatible with the very latest regulations, documents you need and is even easier to use. Here's what is going to be in Health & Safety Xpert® v.4!

Summary of New Health & Safety Xpert v.4 Features!

...And it's all yours with your Health & Safety Xpert Support & Updates renewal! Call 0845 1234 085 today.

HBXL factsheet

New Office & Workplace Risk Assessments

Builders, like other employers have legal requirement to undertake risk assessments in the workplace to protect their health and safety and that of their workforce as well as on site.

Regulation 3, of the Management of Health and Safety at Work Regulations 1999, requires, among other things, that all employers assess the risks to the health and safety of their employees while they are at work – and that includes in the office.

Accidents & emergencies	Occupational health MSDs (Musculoskeletal disorders)
VDU Risk Assessment	
Heating	New & expectant mothers (Maternity Risk Assessment)
Heat stress	Manual handling & lifting
Water systems	Home Working
House keeping	Young person
Noise	Security
Smoking	Mental health
Slips & trips	Stress
Falls	Work related violence
Electricity	Drugs / alcohol
Office machinery	Ignorance / complacency
Glazing (offices with big windows!)	Bomb threats
Repetitive Strain (Upper limb disorder)
