

## EXCAVATION PRE-WORKS INSPECTION

### 1 INTRODUCTION

Before excavation works commence, an inspection of all items detailed in this document will be carried out in pursuance of the Construction (Health, Safety & Welfare) Regulations 1996. These inspections and details of any remedial action taken will be recorded and filed. Additional inspections are required after any event that may have affected the stability of an excavation or after any accidental fall of rock, earth or other material. Work should not commence/continue in an excavation until any remedial action required has been carried out and re-inspected.
